

UA SCIENCE

UA-TRIPODS is an integrated research and educational institute to bring mathematics, statistics, and computer science communities together to develop theoretical foundations of data sciences. It also strives to build partnerships with domain sciences, local industry and business, as well as outreach to the public community. Please see the institute activities and updates at <http://www.tripods.arizona.edu>.

University of Arizona is one of the 12 national recipients for the NSF initiative, Transdisciplinary Research in the Principles of Data Science (TRIPODS).
