

The *Secondary Mathematics Education Program* is one option in the College of Science B.A. or B.S. degree in Mathematics. This option is intended to prepare students to be secondary school mathematics teachers. Students who complete this option will be certified by The Arizona Department of Education as having fulfilled a teacher preparation degree program. The Education Option has two components, a set of *courses in Mathematics* and a set of *courses in Teaching and Learning Mathematics*. The *courses in Teaching and Learning Mathematics* replace the requirement for the minor, although students can pursue another area as a minor.

Admission/Enrollment

- Students interested in enrollment need to contact the Math Center at mcenter@math.arizona.edu or (520) 626-9837
- To be admitted to this program, you must declare Mathematics as your major and select the Education Option.
- The Mathematics Education Faculty will monitor students' progress throughout the program and decide, on the basis of each student's performance in the mathematics major and minor courses, if the student will be admitted to the last phases of the program.
- The minimum number of credits for this degree is 120 (42 upper-division credits required)
